

A close-up photograph of a wood grain with a warm, reddish-brown hue and a fine, linear texture. The grain runs horizontally across the frame.

Olio Palissandro A

A close-up photograph of a wood grain with a warm, golden-brown hue and a fine, linear texture. The grain runs horizontally across the frame.

Olio Teak A

A close-up photograph of a wood grain with a dark, smoky brown hue and a more pronounced, wavy texture. The grain runs horizontally across the frame.

Olio Tabacco A

A close-up photograph of a wood grain with a warm, golden-brown hue and a fine, linear texture. The grain runs horizontally across the frame.

Olio Noce A

A close-up photograph of a wood grain with a dark, rich brown hue and a fine, linear texture. The grain runs horizontally across the frame.

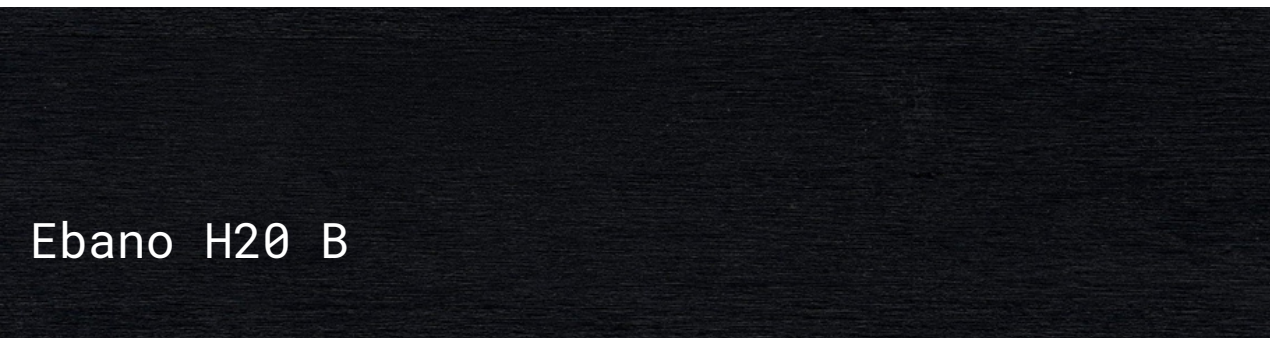

Olio Noce Scuro A

A rectangular wood panel with a blue stain. The stain is a deep, slightly mottled blue, covering most of the surface. The wood grain is visible through the stain, showing a horizontal orientation. The color transitions from a darker blue on the left to a lighter, more ashy blue on the right.

Olio Blu B

A rectangular wood panel with a coffee stain. The stain is a rich, dark brown color, covering most of the surface. The wood grain is visible through the stain, showing a horizontal orientation. The color is relatively uniform, with some slight variations in tone.

Caffè H20 B

A rectangular wood panel with an ebony stain. The stain is a very dark, almost black color, covering most of the surface. The wood grain is visible through the stain, showing a horizontal orientation. The color is very dark and uniform.

Ebano H20 B

A rectangular wood panel with a grey stain. The stain is a medium grey color, covering most of the surface. The wood grain is visible through the stain, showing a horizontal orientation. The color is relatively uniform, with some slight variations in tone.

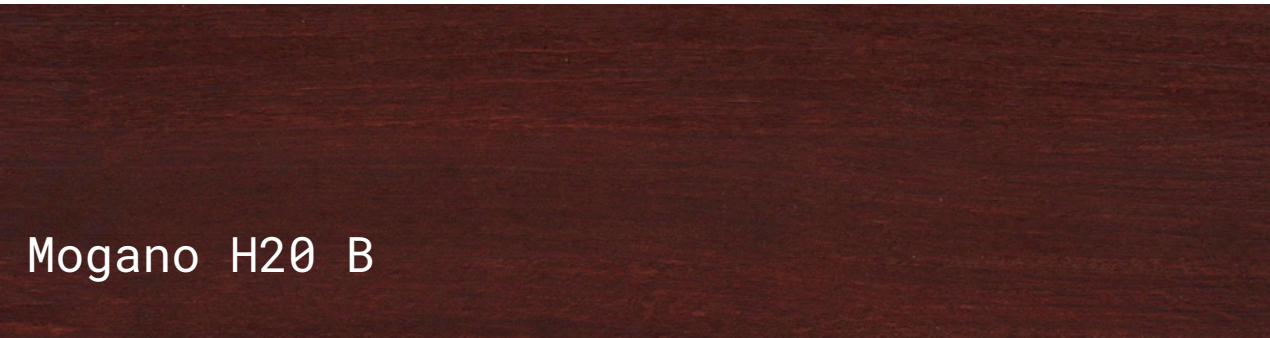

Grigio H20 B

A rectangular wood panel with a green stain. The stain is a vibrant green color, covering most of the surface. The wood grain is visible through the stain, showing a horizontal orientation. The color is relatively uniform, with some slight variations in tone.

Olio Verde B

A horizontal strip of wood with a purple stain. The stain is darker in some areas and lighter in others, creating a mottled effect. The wood grain is visible.

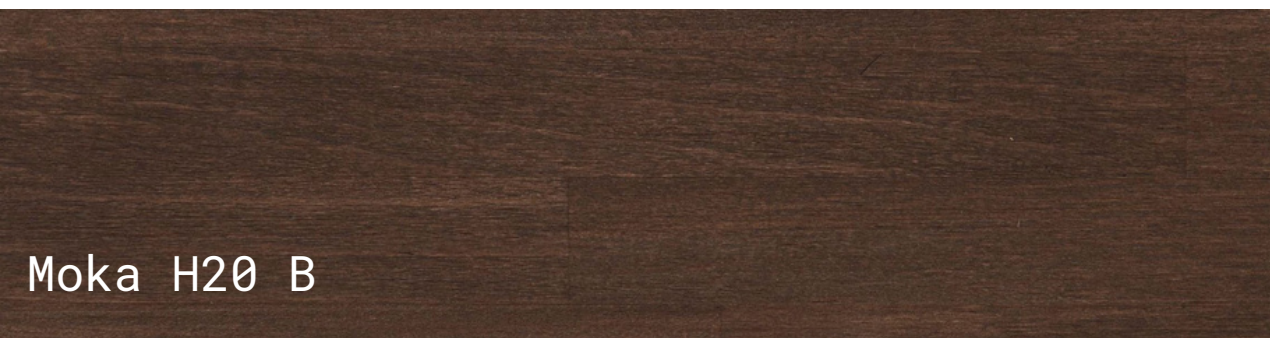

Lilla Olio B

A horizontal strip of wood with a dark brown stain. The stain is uniform across the surface, and the wood grain is visible.

Mogano H20 B

A horizontal strip of wood with a light brown stain. The stain is uniform across the surface, and the wood grain is visible. There are several knots or dark spots scattered across the surface.

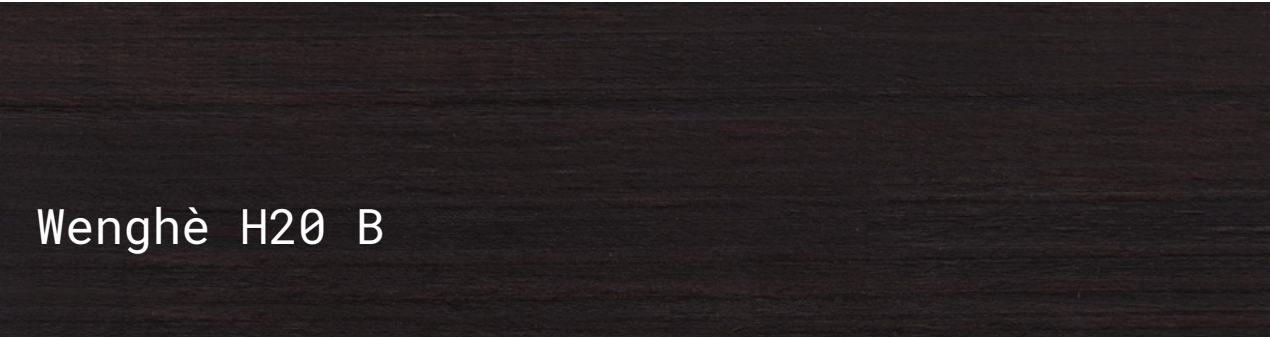

Sayerlack H20 B

A horizontal strip of wood with a dark brown stain. The stain is uniform across the surface, and the wood grain is visible.

Moka H20 B

A horizontal strip of wood with a pink stain. The stain is uniform across the surface, and the wood grain is visible.
